

May 21, 2021: Construction Update No. 29 Bridge Avenue Reconstruction Project

The Bridge Avenue Reconstruction Project resumed on March 29, 2021. Bridge Avenue will be closed from the southerly Fairground entrance (north of Minnie Maddern) to Hammer Road. Ulland Brothers, Inc. will be the prime contractor on this project. Freeborn County and the City of Albert Lea collaborated on this project and have hired SRF Consulting Group to provide construction oversight.

Construction activity completed this week:

- Work progressed on the helical piles.
- Installed storm sewer and watermain north of Richway Drive.
- Placed sidewalk near Minnie Maddern.

Construction activity for next week will be the following:

- Begin sanitary sewer installation from Richway to the north.
- Continue on helical piles.
- Place concrete sidewalk along Bridge from Johnson to Minnie Maddern.

Safety is always our highest concern during construction of these types of projects:

- Please slow down through construction zone for the safety of others, and the workers on site, as well as your own safety. Avoid using a cellular phone when walking or driving near a construction zone.
- Please stay clear of machinery and construction trenches in the work zone. Construction vehicles can move quickly and suddenly. Staying alert to your surroundings reduces the likelihood of an incident.
- In addition, your assistance in directing your children away from construction areas is appreciated.

Thank you for your consideration and patience. For any questions or concerns you may contact the following at SRF Consulting:

Project Engineer: Dan Herzog, 763-452-4826, dherzog@srfconsulting.com

Project Inspector: Steve Herbert, 612-708-5489, sherbert@srfconsulting.com
