

July 23, 2021: Construction Update No. 36 Bridge Avenue Reconstruction Project

The Bridge Avenue Reconstruction Project resumed on March 29, 2021. Bridge Avenue will be closed from the southerly Fairground entrance (north of Minnie Maddern) to Hammer Road. Ulland Brothers, Inc. will be the prime contractor on this project. Freeborn County and the City of Albert Lea collaborated on this project and have hired SRF Consulting Group to provide construction oversight.

Construction activity completed this week:

- Completed box culvert crossing at Goose Creek pond.
- Paved Bridge Avenue from Minnie Maddern to Richway.
- Removed pavement up to Hammer Road.

Construction activity for next week will be the following:

- Install sanitary sewer north of box culvert.
- Work on traffic signal at Richway.
- Begin roadway grading from Richway to the box culvert.

Safety is always our highest concern during construction of these types of projects:

- Please slow down through construction zone for the safety of others, and the workers on site, as well as your own safety. Avoid using a cellular phone when walking or driving near a construction zone.
- Please stay clear of machinery and construction trenches in the work zone. Construction vehicles can move quickly and suddenly. Staying alert to your surroundings reduces the likelihood of an incident.
- In addition, your assistance in directing your children away from construction areas is appreciated.

Thank you for your consideration and patience. For any questions or concerns you may contact the following at SRF Consulting:

Project Engineer: Dan Herzog, 763-452-4826, dherzog@srfconsulting.com

Project Inspector: Steve Herbert, 612-708-5489, sherbert@srfconsulting.com
